- Lasts for up to 12 weeks

**1 Gallon**  
*Covers 2,000-4,000  
Square Feet of Lawn*

**Safe & Non-Toxic**

**Dries in as little as 15 min!**

## **Directions for Use**

### **Before Use**

First, mow lawn to desired length and rake. Make sure grass is dry before spraying - do not apply if wet or in rainy conditions. Cover all plants, concrete or any items that you don't want stained. This product is extremely difficult to remove when dry.

### **Application**

Mix one part of GBG Concentrate with 10 parts of water in any garden sprayer. (1 Gallon sprayer or more recommended.) Test on lawn before use. Spray 6-8 inches straight onto lawn 6-8 inches from surface in a grid pattern. Spray lightly once, wait a moment and then repeat until desired shade is reached. Wet concrete before spraying and use paint shield to prevent spraying concrete.

### **After Use**

Clean sprayer with water immediately after spraying. Refer to manufacturer's instruction for more information.

### **Coverage**

Mix 1 part GBG Concentrate for 10 parts water. Mix smaller amounts for spot spraying. Each gallon GBG Concentrate mixes to 10 gallons of GrassBGreen and covers 2000-4000 square feet of most lawns, depending on the thickness of grass.
